About Me

Junior Frontend Developer specializing in the creation of modern, responsive and interactive web interfaces.

- **Frontend Development** : Proficiency in React.js, JavaScript, HTML5 and CSS3 to design modern, dynamic web interfaces adapted to all devices.
- **UI & Responsive Design** : Creating intuitive and responsive interfaces with Tailwind CSS, respecting UX/UI principles and best practices in web development.
- **Development & Integration** : Capable of integrating Figma mockups, developing reusable components with React and connecting web interfaces to services and APIs to create interactive and functional applications.

Projects

- **Responsive UI Implementation** | Github ↗

React.js · Vite · Tailwind CSS

- Transformation of a Figma UI/UX mockup into a modern and responsive web interface.
- Development of reusable and maintainable React components.
- Adaptation of the interface to different screen formats: desktop, tablet and mobile.
- Implementation of a design faithful to the mock-up with particular attention to visual details.

- **Responsive Portfolio** | Github ↗

React.js · Tailwind CSS · Fast

- Design and development of a modern and responsive personal portfolio.
- Creation of sections dedicated to skills, projects, experiences and personal information.
- Development of an interactive interface adapted to different devices.
- Deployment of the online portfolio.
